## MAN POWER, CASH NEEDED IN GREAT LAKES BASIN NOW

E. G. QUAMME, PRESIDENT OF ST. PAUL FEDERAL LAND BANK, IS SPEAKER

AT THE TRI-STATE DEVELOPMENT CONGRESS NOW IN SESSION IN ST. PAUL

(By United Press)

St. Paul, Jan. 26.—Man power and finance is all that is needed to make the Great Lakes basin the greatest producing and industrial district in the world, E. G. Quamme, president of the St. Paul Federal Land bank, told delegates to the Tri-State Development congress here today.

As temporary chairman of the congress, he pictured Michigan, Wisconsin and Minnesota as three of the greatest producing states.

"And we have just begun to touch upon the tremendous resources of this great basin," he said.

"Agricultural and mineral products are now the foundation of the basin's business," he said, "but lumber and livestock rank high." He urged completion as soon as possible of the Great Lakes-St. Lawrence deep water way to bring ocean liners to our factory and warehouse doors.

J. A. O. Preus, new governor of Minnesota, was to welcome the six hundred or seven hundred delegates expected to attend the congress, and the open session was to be in conjunction with the open forum meeting of the St. Paul association.

Ben F. Faast, of Eau Claire, director of the St. Paul Federal Land bank, was to tell the congress of the bank's system of land securities, credit and personal credit.

### Farm Credit Big Subject

Ben F. Faast, of Eau Claire, Wis., director of the St. Paul Federal Farm Loan bank, told the meeting that a credit system must be worked out that will be as lenient with farmers as with labor in the city.

"The rapid growth of cities brought first to the attention of the general public the necessity of providing homes for the thousands of workers pouring into the already congested centers, homes with all modern conveniences now being built, and paid for in small installments under a long period of years."

He declared the farmers enjoyed no such leniency with credit and urged that a new rural credit plan will benefit farmers in the fully improved districts as well as the pioneers of agricultural frontiers.

## NO MORE QUICK SHIFTS BY THE NON- PARTISAN LEAGUE

St. Paul, Jan. 26.—The state senate today took steps to prevent recurrence of the nonpartisan league shift in the last state election.

A bill was introduced by Senator H. M. Benson amending the state election law to prevent any candidate defeated in the regular party primaries re-entering the race independently or under other colors. It was passed by the upper house and sent to the assembly. It is practically certain the measure will pass the house, leaders said. The house election committee recommended a similar bill for passage.

It may be the only election law amendment to be considered in the legislature this session. Other primary law changes have been frowned on in committee sessions.

The grain and warehouse committee in the house voted for passage of a resolution asking restoration of the Minnesota grain grading, but declined the proposal to send a committee to Washington to urge changes in the federal grain grades.

The marketing committee opened hearings on the cold storage bill. Representatives of the state educational department explained their budget to members of the appropriation committee. The public welfare committee voted to indefinitely postpone a bill providing for old age pensions.

The state development committee recommended for passage the Christianson bill proposing a constitutional amendment to establish a rural credit system under which the state may loan money on farm lands or to co-operate marketing associations, subject to state control.

JAMES HARTNESS

James Hartness of Springfield, Vt., governor-elect of the state, is noted as an astronomer and inventor.

## STATE DEPARTMENT SALARY BOOSTS

St. Paul, Jan. 26.—Salaries in two state departments will receive decided boosts if two bills offered in the senate are made laws.

Senator A. C. Gooding of Rochester, introduced a measure increasing pay in the attorney general's department. It gives the attorney general a raise of from \$5,000 to \$6,000.

Department of education attaches are to receive an increase, according to the provision of a bill offered in the senate by Arch Coleman of Minneapolis. The superintendent's salary would be boosted from \$5,000 to \$6,500; deputy, \$3,500 to \$5,000; seven department heads, \$3,000 to \$4,500; ten department heads, \$3,000 to \$4,000; three assistants, \$2,500 to \$3,000, and two assistants from \$1,500 to \$2,500.

## 5 BANDITS LEAVE VICTIM THIN DIME

(By United Press)

St. Paul, Jan. 26.—Five youthful bandits who looted his home after tying him to a chair last night, left Wm Cannon a dime for car fare down town today.

In a fifteen minutes search of the house the robbers obtained forty-seven dollars, a diamond stick pin, revolver and a gallon of grain alcohol, Cannon told police today.

The bandits covered Cannon's face with a pillow so the only description he could give was that they were well dressed young men.

## MUCH IS TOLD BY PROVERBS

Household Sayings Throw Light on Characteristics of Social Groups Whence They Emanate.

It is a commonplace to say that a nation's moral code is revealed in its proverbs; but it is less widely recognized that proverbial sayings throw light also upon the long-standing economic structure of a social group. A proverb is not an individual observation; it condenses the experience of a class, a sex, a caste. A large number record the accumulated experience of the small peasant proprietor, his ceaseless labor and petty saving and screwing. "While the sheep bleats he loses a mouthful."

The economics of married life are often tersely laid bare. "A wooden mother is better than a golden father" (Shropshire) must be taken from the outlook of a wife who would be summed up in a national census as "home worker."

"A rolling stone gathers no moss," says the wisdom of the staid British countryman, diligently making the best of his land by long and careful husbandry. "By going and coming the bird builds its nest" is the opposite point of view held by a Negro trader traveling backward and forward through the African forest.

Bawbees are round and rin away. A grip of the grund is guide to hae.

expresses the land-hunger of a Scotsman of the old school, mistrusting "investments" which he cannot see and handle.

Here is a trio from Norway: "A large stock needs much pasture." "A cow will not hear that the hay is dwindling away." "You cannot climb a mountain by a level road." Do they not sum up certain aspects of the little farm perched up amid scanty mountain pastures?

Factory life, a modern growth everywhere, has not yet left its mark upon the proverbial lore of any country because it has not yet been fully assimilated as a mode of self-expression. The proverb is everywhere a spontaneous growth, for "shoes alone know if 'tocking hab holes," as they say in Jamaica.

## SLASHES IN RY. EMPLOYES WAGES BEING CONSIDERED

UNITED STATES RAILROAD LABOR BOARD RECEIVES RAIL HEAD PETITION

PRES. BUGG SAID HIS ROAD WAS LOSING \$100,000 A MONTH

(By United Press)

Chicago, Jan. 26.—Slashes in wages of railroad employees was being considered today by the United States railroad labor board.

This follows a petition presented to the board by E. L. Bugg, president of the Atlanta, Birmingham & Atlantic railroad, asking that wages be reduced to a level to keep the roads from the hands of receivers.

Bugg declared his road was losing \$100,000 a month, and attributed this to wage increases amounting annually to \$2,400,000 since 1914.

Chairman E. H. Bailey of the board said the case is pressing and promised early decision. Other railroads are expected to file similar petitions soon, although officials refused to discuss this subject at various rail headquarters here today.

Canvassing of railroads show however that railroads are curtailing all expansion plans in the 1921 budget because of lack of funds.

## IMPLEMENT BUYING HAS NOT SET IN

(By United Press)

Fargo, Jan. 26.—Farming machinery made when steel prices were soaring, is out of the reach of many farmers whose buying capacity has shrunk temporarily, implement dealers of North Dakota agreed today.

Marketing the machinery is the hardest problem before dealers, according to L. A. Lathrop, secretary of the North Dakota Implement Dealers association.

"Implement buying probably will remain so during the first half of 1921," said Lathrop. "After that there may be a decline."

## FLOUR MARKET IS NOT ACTIVE

(By United Press)

Minneapolis, Jan. 26.—The flour market has been less active during the past few days than might have been expected, the Northwest Miller in its weekly review of the flour trade, said today.

The weakness of wheat kept away prospective buyers who had been apparently about ready to go into the market with buying orders.

## The Bee Inspector Will Be Busy Bee

(United Press)

St. Paul, Jan. 26.—The proverbial "busy bee" won't have a thing on bee inspectors in Minnesota hereafter if a bill introduced by Senator G. A. Turnham of Hennepin county, passes the legislature.

Life for the inspector will be just one change of clothing after another, for the measure provides they shall switch attire after every inspection to prevent spreading infectious diseases from one hive to another. It is a proposed amendment to the present law.

## SIDELIGHTS IN THE STATE LEGISLATURE

St. Paul, Jan. 26.—The house recommended for passage a bill raising the salaries of judges in the 15th judicial district. The eight counties of the district would raise \$1,500 for each judge, according to assessed valuation. Rep. J. B. Hompe told the house this was no time to pass salary increases, and said it would be a bad precedent for other judges, but his objections were overruled on the vote. Rep. F. J. McPartlin of International Falls championed the bill.

County Law Libraries Approved

Rep. J. B. Gislason was defeated in trying to block H. F. 152 providing that counties of more than 20,000 population could establish law libraries. It was recommended to pass. Rep. P. J. Long of Ironton was the introducer.

\$20,000 Proposed for Ore Tests

Appropriation of \$20,000 a year for two years to experiment at the

MISS JANE GREGORY

Miss Jane Gregory, whose engagement to George Stuart Meyer of Houston, Tex., has been announced by her parents, former Attorney General and Mrs. Thomas Watt Gregory.

## PRESIDENT-ELECT HARDING OUTLINES INAUGURAL MESSAGE

PRELIMINARY WORK HAS BEEN STARTED ON HOUSEBOAT VICTORIA

SENATORS CUMMINS AND FALL PREPARING DATA TO BE USED BY HIM

(United Press)

Port Pierce, Fla., Jan. 26.—Preliminary work on President-elect Harding's inaugural message has been started aboard the houseboat Victoria, it was learned here today.

Senator Cummins of Iowa, and Fall of New Mexico, are understood to be preparing a memorandum to be used by Harding when he starts to write his address. Several extended conferences have been held between the three regarding the material to be used in the address.

Cummins is working on data dealing with transportation problems and Fall on foreign relations with Mexico. Henry P. Fletcher, former ambassador to Mexico, who is also aboard, is assisting. Cabinet talk is for the most part barred during the cruise.

## BILL TO TAX THE BACHELORS

(United Press)

Topeka, Kan., Jan. 26.—Single men will have to help educate the children of married men if a bill to tax bachelors introduced by Senator Chas. Ridgeway becomes a law.

At the same time the same bachelors would be helping take care of maiden school teachers who give the best of their lives to children who belong to neither.

## AFTER HIGH PRICES COMES INVESTIGATION

(By United Press)

Washington, Jan. 26.—Investigation of the print paper situation by the federal trade commission, was proposed in a resolution in the senate today by Senator Harris of Georgia.

## ARIETA BROTHERS ARE ON WARPAT IN OLD MEXICO TODAY

FEARS ENTERTAINED FOR AMERICAN COLONY AT TEPEHUANES, STATE OF DURANGO

MEXICAN GOVERNMENT ORDERS GENERAL MARTINEZ ON TRAIL OF BANDITS

(By United Press)

Mexico City, Jan. 26.—Fears were felt here that a large number of Americans were in a mining camp at Tepehuanes, state of Durango, which is reported to have been attacked by a force of bandits headed by the Arieta brothers.

The Arieta brothers organized several days ago, according to advices received here, and went on the warpath at Duran with a big following. The government has ordered General Eugenio Martinez, who brought about the surrender of Francisco Villa, and has the reputation as one of the biggest bandit hunters in Mexico, to start on the trail of the Arieta brothers immediately. He is getting under way with his strong force of federal troops.

Efforts are being made to learn the outcome of the reported Arieta attack on the Tepehuanes mining camp. The Americans and other foreigners in the camp are believed to have been well armed.

It was learned here that the Arieta brothers campaign would probably be protracted as the new bandit leaders are operating in a portion of Duran which has many hiding places particularly the mountains. It borders on the state of Chihuahua, the scene of the Villa episode.

The report they had attacked the mining camp came as a shock here. The Arietas have a tremendous following, thousands of peons and cattlemen in Duran putting their power above that of the federal government in that state.

### Dangerous Menace

Washington, Jan. 26.—President Obregon is faced with the most dangerous menace to the peace of Mexico that has threatened since he assumed office, officials declared today in commenting on the most recent Mexican revolt, that of the Arieta brothers in the state of Durango.

Dating back to old days of President Diaz, the Arieta family has been powerful in northern Mexico. There are twelve brothers, owners of great ranches and land in Durango. One of the brothers was governor of the state during the rule of Victoriano Huerta.

## MAY LOSE POWER TO APPOINT DEPUTY

(By United Press)

St. Paul, Jan. 26.—Power to appoint a deputy would be taken from the clerk of the state supreme court by a bill offered today by Senator Clifford of Ortonville. The measure gives the appointive power to the justice of the court.

## ST. PAUL KIDS TURN BANDITS

(By United Press)

St. Paul, Jan. 26.—Banditry involved St. Paul juveniles last night. "Izzy" Hoffman, a newspaper boy, was held up and robbed of his day's receipts, two dollars, by two boy footpads.

"They were just a couple of kids," he told police.

EDWARD B. M'LEAN

Edward Beale McLean, publisher of the Washington Post and the Cincinnati Enquirer, who has been appointed chairman of the committee for the inauguration of President-elect Harding. Mr. McLean is a native of the District of Columbia, where he received his education, and has lived continuously. He is thirty-five years old.

## U. S. INVISIBLE PARTICIPANT OF ALLIES

(By United Press)

Paris, Jan. 26.—Uncle Sam today became an invisible participant in the allied supreme council meeting here. His attitude toward the allies, toward Germany and the league of nations became a question of shutting out consideration of Austria and the Near East temporarily.

The report of Sir Auckland Geddes, British ambassador to the United States, will form the basis of the allies debate as to what may be expected from the United States.

### U. S. Receiving Reports

Washington, Jan. 26.—The United States, though not represented at the meeting of the allied supreme council at Paris, is receiving reports from the British and French governments on the subject of German disarmament, state department officials said today.

## MOB VIOLENCE FEARED IN MEMPHIS

(United Press)

Memphis, Tenn., Jan. 26.—Mob violence was feared today as enraged citizens sought Matthew Houston, 16 year old negro, who officials say, confessed to murdering and mutilating the body of five year old Frank Daily. Houston, who was suspected in connection with the child's death, was immediately placed under arrest and taken to the state prison at Nashville for safety.

## PRES. OBREGON AS LIFE SAVER

(United Press)

Mexico City, Jan. 26.—President Obregon of Mexico, was slightly burned late yesterday in saving a small child from being burned to death, it was learned today. Obregon, who has only one arm, rolled the child in the grass, tearing the blazing garments from it. His hand was scorched.

## ETERNAL TRIANGLE CAUSES TROUBLE

(By United Press)

St. Paul, Jan. 26.—Alleging that her husband has been living with another woman named Hilda Nitz in Minneapolis for more than three years and that he has three illegitimate children by her, Mrs. Lorena G. Brown, 31, today filed suit for divorce in district court.

### Prehistoric Graveyard Unearthed.

A prehistoric graveyard believed to be at least 2,000 years old has been unearthed near Starward West Prussia, by German investigators under the direction of Professor Zakrewski. In one of the graves the excavators found six black urns and one red urn with white stripes filled with clay and ashes. Among the remains were some glittering substances which the investigators believe once had been adornments of prehistoric men and women.

### Electricity in White House.

The White House is probably more intricately equipped electrically than any other residence in the world. There are in the house more than 170 miles of wires, providing for 3,000 incandescent lights, a bell system and a private telephone system for the president and his family, exclusively.

## INSINUATIONS ARE FALSE AS JUDAS, SAYS CHAS. SCHWAB

"BUT THEY HURT, GOD KNOWS HOW THEY HURT," SAYS THE STEEL MAGNATE

FORMER COMPTROLLER GIVES TESTIMONY IN SHIPPING BOARD PROBE

HAROLD JACOBS

(Copyright 1921 by the United Press)

New York, Jan. 26.—"The insinuations against me are as false as Judas, but they hurt—God knows how they hurt."

These were the words of Charles Schwab to the United Press, as he sat with his grayhaired wife at dinner in their mansion only a few hours after he had broken down and wept on the witness stand at the shipping board inquiry.

"Of course, I know that my friends know, and I believe the vast majority of the public know, that I am innocent. But it is cruel that even one person should suspect if even for a moment that after an honorable business career of forty years, I could entertain any thought of dishonesty, let alone petty graft from my country."

The steel magnate still shows the mental strain since last Friday when Col. Abadie, former comptroller of the shipping board, testified that a voucher for \$269,000 had been found in the account of the Bethlehem Steel corporation as Schwab's "personal expenses," \$100,000 of which was charged to the government for ship construction. Subsequent testimony proved and documents proved that the \$269,000 was really charged to "general expenses," that the \$100,000 was not billed against the government, and that Schwab had never collected a cent from the federal treasury, not even his dollar a year.

Schwab had the appearance of a sensitive boy who had been punished for some misdemeanor which he had never committed.

The hurt was evidenced in his face, in his voice, and in words.

"Why he hasn't slept for four nights," Mrs. Schwab said, and there was considerable pity and understanding in her intonation.

### Statement to Exonerate

Washington, Jan. 26.—A statement exonerating Chas. H. Schwab from an allegation that \$100,000 of a general expense voucher for \$269,000 in the Bethlehem Steel company's account was charged to the government for ship construction, is being prepared by members of the Walsh investigating committee, it was learned here today.

## WOMAN BATTLES TWO BURGLARS

(By United Press)

Minneapolis, Jan. 26.—Mrs. Bertha Brennan fought a hand to hand battle with two burglars in her apartment last night. She lost the battle and a wrist watch valued at \$100, but saved other valuables worth \$1,000.

Mrs. Brennan found the pair in her apartment when she returned from the movies. One robber was staged at the door and the other was hiding working with a dark lantern. The woman attacked the one at the door and put him on the run. She attacked the other man but was knocked unconscious by the burglar. The wrist watch was removed. Neighbors rushed to her aid. The bandits escaped.

## YELLOW DIAMOND MURDER MYSTERY

(By United Press)

Madison, Wis., Jan. 26.—Scent on the trail of suspicion in the "Orange yellow diamond murder mystery," grew hot today when names of several persons whom she believes were connected with the murder of her husband, Richard Scott Lawrence, former Denver politician and capitalist, were furnished District Attorney Theodore G. Lewis, by Mrs. Rachel Lawrence, the widow.

One of the men, it is said, is charged by Mrs. Lawrence as being the instigator of the plot which caused her husband's death.

**THE WEATHER**  
Forecast for next 24 hours:  
Minnesota—Fair tonight and Thursday, not much change in temperature.  
Cooperative observers record, Jan. 25—Maximum 20, minimum 3. Reading in evening, 15. Southeast wind. Clear.  
Jan. 26—Minimum during the night, 4.

### LOCAL NEWS NOTES

Geo. D. LaBar returned last evening from the Twin Cities.  
Attorney C. A. Ryan returned from Duluth on Monday evening.  
Clyde Parker returned from the Twin Cities on the train Tuesday evening.  
Mrs. John McKay returned from the Twin Cities on Tuesday evening's train.

### FOR SALE

Team of Horses, Harness, Wagon and Sled  
**SWANSON & THON**

Mrs. Matt Hill returned to Brainerd this morning after visiting in Jenkins.

P. S. Workman returned on the train Tuesday evening from the Twin Cities.

The New Park theatre will run a Hoover special matinee on Saturday morning continuously from 9 o'clock until noon. The tickets are twenty-five cents each and will be sold in advance. School children will take them to their homes and merchants are asked to sell them in their stores. The advertising has been done gratuitously by the newspapers, and the theatre is donated. There will be no expense at all, and all the money received will be turned over to the Hoover relief council to save the starving children of Europe.

Wanted to borrow money for furthering invention, valuable in scientific research, apparatus for opening GLASS CYLINDER TEST BOMB under vacuum or gases, in glass containers. Bonus and interest with principal after patented, but no partnership or shares to loaner. See E. W. Van Walk.

Geo. D. LaBar, who together with W. C. Cobb, superintendent of schools and H. F. Michael, was in St. Paul Monday and Tuesday presenting facts to the proper committee of the legislature relative to Brainerd's need of a share of the gross earnings tax, reports that the outlook is encouraging. Mr. LaBar gives it as his opinion that the city may receive consideration now that the facts have been canvassed by the committee, and that the aid which is necessary may come through other measures than those previously proposed.

### Malignant Ghost.

Last Christmas, a house in Leeds was visited by an amazing ghost.

A woman, returning home, went into the kitchen to warm herself at the fire. Suddenly she was startled to see two long white arms emerge from the flames. Nearer and nearer they came, until they gripped her arms above the elbow.

The touch was like red hot iron, and she fell fainting to the ground. When she recovered she was surprised to find that there had been no fire in the grate. She visited a doctor, who examined her arms and found distinct signs of burns. This was afterward corroborated by another doctor.—London Mail.

### "The Right Kind of Child."

Give a little love to a child, and you get a great deal back. It loves everything near it, when it is the right kind of child—would hurt nothing, would give the best it has away, always, if you need it—does not lay plans for getting everything in the house for itself, and delights in helping people; you cannot please it so much as by giving it a chance of being useful, in ever so little a way.—John Ruskin.

BRAINERD, MINN.

## PRETTY DANCING PARTY

Mr. and Mrs. Harry A. Smith, Mr. and Mrs. D. E. Whitney and Dr. and Mrs. W. A. Erickson Entertain

Enthusiastic reports have been received from guests who were present at what they describe as one of the prettiest dancing parties of the season. This party was held in Elks hall on Monday evening when about 75 couples were entertained by Mr. and Mrs. Harry A. Smith, Mr. and Mrs. D. E. Whitney and Dr. and Mrs. W. A. Erickson.

The hall was artistically decorated and in one corner an imitation of an old well was produced by the use of the growth of the woods of this part of the state. From a bucket, representing the olden bucket, frappe was served.

The New Park orchestra, under the direction of Wm. F. Palmer, furnished the music which won the appreciation of those present.

## Nurse Supervising Committee

The Nurse Supervising Committee had its usual monthly meeting and also a special meeting. The health car has been put in excellent shape and is running better than ever before.

Miss Crowley held a mental clinic in the nurse's office on Tuesday.

On Thursday morning the children will be vaccinated at the various schools. About 135 are to be vaccinated.

## Devotional Meeting

The devotional meeting of the First Baptist church will be held on Thursday evening at 8 o'clock lasting one hour. This should be a gathering for earnest prayerful consideration and preparation for the meetings to be held next week under the leadership of Dr. Norcross of New York City. The conference part of the session will be the lesson number three in personal evangelism. The pastor will lead.

## Johnson-Olson

In the marriage announcement made Tuesday the bride's name was given as Edith C. Williams when it ought to have been Edith C. Johnson. Wallace Oscar Olson and Edith C. Johnson were married in the office of the clerk of court on Monday afternoon.

## Bethany Birthday Club

The Birthday club of Swedish Bethany church will meet with Mrs. P. G. Fallquist at the parsonage on Thursday afternoon. This is the first meeting for several months and every member is expected to be present. Visitors are always welcome.

## Bethlehem Aid

The Ladies Aid of the Bethlehem Lutheran church will be entertained on Thursday afternoon by Mrs. Anna Saltee at her home at 220 No. Third street. Visitors are invited and are always welcome.

## DOES YOUR BACK ACHE?

It's usually a sign of sick kidneys, especially if the kidney action is disordered, passages scanty or too frequent. Don't wait for more serious troubles. Begin using Doan's Kidney Pills. Read this Brainerd man's testimony.

Peter Paulson, 402 Oak St., W. says: "About a year ago I was lifting some heavy bags and slipped and wrenched my back. For several days I was all in and could hardly attend to my work. It seemed to cause an irregular action of my kidneys. I had no energy to do anything, felt tired all the time and suffered from backache. I tried Doan's Kidney Pills and they soon relieved me of my trouble. I have been free from backache and kidney trouble ever since."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Paulson had. Foster-McBarn Co., Mfrs., Buffalo, N. Y.

## Cause of Earthquakes.

Modern geological science holds that earthquakes are due to "faulting." "Faults" are breaks in the strata of the earth's surface, the broken edges slipping past each other so that the same rock is found at different levels on opposite sides of the fault. These breaks create weak places in the earth's crust, and from time to time more slipping occurs. When this happens, an earthquake of greater or less violence is the result.

## Primitive Pins.

The earliest kind of pins, or of spikes serving the same purpose as pins, were probably thorns or the small bones of fish and other animals. Among the remains found on the sites of prehistoric lake-dwellings of Europe there are a number of bone pins, some of rude and others of an elegant form. The great majority of the pins in these "finds" are, however, of bronze; but a few of copper and one of iron have also been discovered.

# JUST FUN

**Not Afraid.**  
"John," exclaimed the nervous woman, "there's a burglar trying to get in to the flat."  
"I'll get up and give him the fight of his life."  
"Aren't you afraid?"  
"Not a bit. Any burglar who thinks this flat can hold all three of us must be a little bit of a fellow."

**Same Thing.**  
"The gang's a good bunch, I'll tell the world," was the way the politician expressed it.  
But here's the way it appeared in the newspapers:  
"The esprit de corps of my organization is simply marvelous. I'm proud to say," declared Mr. Melghan.—Judge.

**Say It With Flowers.**  
"I'm getting home a trifle late. Got to take along some flowers to appease my wife."  
"Roses?"  
"Naw, too many thorns. Gimme somethin' that won't scratch if I get the bouquet across my face."—Judge.

**Light.**  
"Some of our greatest men studied by the light of a log fire."  
"It isn't such a bad light," observed Mr. Growcher. "It has an advantage of not entitling anybody to send a bill and then turn the light off if you forget to pay."

**The Dread Alternative.**  
The Heroic Star—I'm tired of these breakneck stunts. Haven't you another part for me?  
The Director—Nothing but a lover's part, playing opposite your wife.  
The Star—Lead me back to the cliff.

**'Twas Ever Thus.**  
First Martian—It takes all kinds of people to make a world.  
Second Martian—What caused you to pull that hoary platitude?  
First Martian—Just talking with a simp who believes the earth is inhabited by humans.

**HAVE A CARE**  
"Do you think kissing is unsanitary?"  
"Well from experience I would say it is very dangerous, especially to unmarried people."

**Difficult Position.**  
Afar I dare not roam,  
Because of coin that must be spent,  
I dare not stay at home,  
Because I can't afford the rent!

**Burning Questions.**  
The soap box orator found many things to criticize.  
"And what do we do?" he cried.  
"We pursue the shadow, the bubble bursts, and leaves but ashes in our empty hands!"

**Naturally.**  
"The Spanish people are obstinate about keeping up their bullfights, aren't they?"  
"I must admit, when they are going to a bullfight, they are bull-headed."

**To Save the Furniture.**  
"Jack Huggins was more than half an hour trying to persuade me to name the day."  
"Did you give way?"  
"Yes. I was afraid the chair would if I didn't."

**The Shining of Marks!**  
Brock—I heard of a German who cleaned up a fortune in two months.  
Stock—I'll bet he did not get it very clean in that length of time.—Cartoons Magazine.

**Fitting Ornament.**  
"Lydia has such a nice sense of the appropriate."  
"What made you notice it particularly just now?"  
"Didn't you see she carried a gun metal bag with her shot silk dress?"

**Cynical Comment.**  
"Do you believe in love at first sight?"  
"Well, there isn't much second sight about it, is there?"

**The Real Difficulty.**  
"How did he make his money?"  
"That isn't worrying me. What I'd like to know is how did he manage to save so much of it."

**Taken Out of Him.**  
"James had a bossy disposition when he was a boy. Is he still so dictatorial?"  
"No; he married very young."

## CHESS COMES EASY TO HIM

Youthful Prodigy Declares There is Nothing Wonderful About His Mastership of Game.

Chess is the easiest game in the world to me. During the long dull days of the war my father used to play all the time with his friends. At first I did not understand what the chessmen were for, and wondered why father would sit for hours and gaze at the board with its funny-looking pieces. One day when I did not want to go out and play I watched him play his game. I became interested. I bothered my father so with questions that he chased me out of the game as soon as he was through with his friend. I waited eagerly for him to get through. He played a practice game with me, and I understood every move after that. The next game we played, I beat my father, who is a very good chess player.

There is nothing wonderful about my way of playing the game. My secretary, Mr. Azenberg, says that it comes from reincarnation. A baby is born with good brains, and they explain it that way. They say that his ancestors or some spirits have given this power to him because so much ability in one person must have taken a long time to develop. When I play chess I can plan my moves six or seven moves ahead, and most players can only go three moves ahead of the game. I can't help it at all. I was born that way. I like to play with poor players. At West Point, where I beat 19 games and drew one, there were only nine good players; the others had no business trying to play me at all.

I have played lots of fine players in chess. During the war I beat the German governor at Warsaw, and he was an old man and a fine player. Then I drew a game with Rubenstein, the Russian champion, and also drew with Griffin in a blindfold game in England. I have not played Lasker yet, but one of the 21 I beat in Paris says he drew a game with Lasker, and another said he beat Capablanca. In America, my hardest game so far has been with Colonel Flebeger, sixty-two years old, at West Point.—Samuel Rzeszewski in Leslie's.

## SEE SUICIDE NATIONAL PERIL

Influential Japanese Newspapers Exalt Christian Idea as to the Sacredness of Life.

Suicide, which has always been prevalent in Japan, is, according to the Japanese press, even more rife than ever since the financial crisis in the Land of the Rising Sun, says the Literary Digest in a recent issue. The Osaka Mainichi, which sees peril to the nation in the prevalence of self-slaughter, acknowledges the excellences of the Christian view that suicide, instead of being merely an apology for failure, is a crime. Many suicides in Japan are due to the fact that the Japanese have "less attachment to life than foreigners," and also to the traditions of feudal times when they belittled life.

The Osaka Mainichi says further: "Death—much more suicide—means evasion of responsibility . . . and the notion that those who commit suicide have the keenest sense of responsibility is wrong. Suicide is the embodiment of egotism and irresponsibility. One of the strong points of the Christian people is their conviction that to kill one's self is as criminal as to kill others."

## Remarkable Photographic Feat.

Conspicuous among a number of remarkable scenes in a three-reel motion-picture film recently taken of an Ohio steel mill in operation, is one that actually shows the boiling of molten metal in an open-hearth furnace heated to 3,000 degrees Fahrenheit. The photographic feat of successfully registering this action in detail on the film is particularly interesting, because the subject is one that a human eye can not gaze upon unprotected, says Popular Mechanics Magazine. Furthermore, the extreme heat of the furnace cast some doubt on the safety of the camera, with its charge of celluloid ribbon, and while the exposure was made, two men stood ready to hurl the operator to a cooler place if anything happened.

## Potato Flour Mixed With Wheat.

A fifty-fifty mixture of wheat flour from the United States and potato flour of domestic make has been ordered by the Netherlands government for its people with the hope of keeping down the price of bread. Unless something is done to keep down the price of imported wheat it will soon be out of the reach of the populace, says the Chicago Journal. Potato starch was used a great deal during the war for the purpose of piecing out the wheat flour supply, and it was not generally acceptable to the people, but potato flour will not be open to the same criticism, and it is anticipated will prove more palatable.

## No Respector of Persons.

Law enforcement is no respector of persons, as a young woman stenographer in the office of Charles J. Orison, federal prohibition director, can testify.

This young woman ordered some wine of pepsin from her druggist. The druggist considered the order and her record on previous orders. "Young woman," he said, "I cannot sell you any wine or pepsin. You are using too much. We are under strict orders from the prohibition director to watch carefully our sales on wine of pepsin."—Indianapolis News.

## Articles of Incorporation of The

## Laurel Company

Know All Men by These Presents, That we, whose names are hereunto subscribed, have agreed to and do hereby associate ourselves for incorporation under the laws of the State of Minnesota, and to that end have adopted and signed the following articles of incorporation:

**ARTICLE 1**  
Sec. 1. The name of this corporation shall be The Laurel Company.

Sec. 2. The general nature of the business of this corporation shall be to construct, reconstruct or purchase buildings; to operate, develop, purchase, lease, hire or otherwise acquire real and personal property of every kind and description; to own and operate hotels and mercantile establishments; to own, hold, buy, operate, develop, sell, convey, lease, mortgage, encumber or otherwise dispose of real estate and personal property; and to do and perform all things needful and lawful for the development and improvement of said real estate.

Sec. 3. The principal place of transacting the business of the corporation shall be, at Brainerd, Crow Wing County, Minnesota.

**ARTICLE 2**  
Sec. 1. The period of duration of this corporation shall be thirty (30) years.

**ARTICLE 3**  
Sec. 1. The capital stock of this corporation shall be Two Hundred Thousand (\$200,000.00) Dollars, divided into Two Thousand (2000) shares of One Hundred (\$100.00) Dollars each, of which Seventy-five Thousand (\$75,000.00) Dollars par value shall be preferred stock, and One Hundred Twenty-five Thousand (\$125,000.00) Dollars par value shall be common stock, all of which shall be issued and paid in at such times and in such manner and in such amounts as may be prescribed by the Board of Directors.

Sec. 2. The holders of the common stock of this corporation shall be entitled to one vote, either in person or by proxy, at all meetings of stockholders, for each share of common stock held by them.

Sec. 3.—The preferred stock of this corporation shall be entitled to receive ten per cent of the net profits of the corporation, or otherwise, yearly dividends or interest at the rate of seven per cent and no more. Dividends on the preferred stock shall be cumulative and shall be payable before any dividends on the common stock shall be paid or set apart, so that if in any year dividends amounting to seven per cent shall not have been paid thereon, the deficiency shall be payable before any dividends shall be paid or set apart for common stock, in the event of any liquidation or dissolution or winding up of the corporation, the holders of said preferred stock shall be entitled to be paid both the par amount of their stock and the unpaid dividends accrued thereon before any amount shall be paid to the holders of the common stock.

Sec. 4. Said preferred stock is subject to redemption at the option of the corporation at any time upon the payment of \$105 per share and accumulated dividends.

Sec. 5. The preferred stock shall not be entitled to vote at stockholders' meetings of the company, nor to participate in the profits beyond its fixed preferential annual dividends or interest not to exceed seven per cent.

**ARTICLE 4**  
Sec. 1. The highest amount of indebtedness or liability to which said corporation shall at any time be liable, shall be One Hundred Thousand (\$100,000.00) dollars.

**ARTICLE 5**  
Sec. 1. The names and places of residence of the incorporators are as follows:

George H. Gardner, Brainerd, Minn.  
Benjamin Drake, Minneapolis, Minn.  
Robert W. Hargadine, St. Paul, Minn.

**ARTICLE 6**  
Sec. 1. The names of the first Board of Directors of said corporation are as follows:

George H. Gardner, Brainerd, Minn.  
Benjamin Drake, Minneapolis, Minn.  
Robert W. Hargadine, St. Paul, Minn.

Sec. 2. The government of said corporation and the management of its affairs shall be vested in a Board of not less than three (3) and not more than five (5) directors, and in a President, Vice-President, Secretary and Treasurer.

Sec. 3. The officers of said corporation shall be chosen from the directors or stockholders and one person may hold any two offices.

Sec. 4. The annual meeting of the stockholders of said corporation for the election of directors and the transaction of such other business as may properly come before them shall be held at the office of the corporation in Brainerd, Minnesota, on the first Monday in June in each year, commencing with the year 1921, at 10 o'clock a. m. Other meetings of the stockholders of said corporation shall be held at such times as the By-Laws of said corporation may provide.

Sec. 5. The annual meeting of the Board of Directors of said corporation, for the election of officers and the transaction of such other business as may properly come before them, shall be held at the office of said corporation on the first Monday in June in each year, commencing with the year 1921, and immediately after the adjournment of the meeting of the stockholders. The Board of Directors may hold such other meetings as the By-Laws of said corporation may provide.

Sec. 6. The directors of said corporation shall be elected by the stockholders from among their number, at the annual meeting in each year, and the officers of said corporation shall be elected by the Board of Directors from among the directors or stockholders, at the annual meeting of the Directors in each year.

Sec. 7. George H. Gardner shall be the first President and Treasurer of said corporation; Robert W. Har-

gadine shall be the first Secretary and Benjamin Drake shall be the first Vice-President. Said officers shall serve until their successors are elected and qualified.

Sec. 8. Any vacancy in any of said offices, or in said Board of Directors shall be filled by the Board of Directors for the unexpired term.

Sec. 9. The duties of the officers and directors of said corporation shall be, prescribed by the By-Laws.

Sec. 10. The first meeting of said corporation shall be held at the office of George H. Gardner, Brainerd, Minnesota, on the 1st day of March, 1921, at 10 a. m.

In Witness Whereof, the persons hereinbefore named as incorporators have hereunto subscribed their names, and affixed their seals this 19th day of January, 1921.

GEORGE H. GARDNER, (Seal)  
BENJAMIN DRAKE, (Seal)  
ROBERT W. HARGADINE, (Seal)

In the presence of:  
P. L. SOLETER, (Seal)  
BYRON DARS BOE.

State of Minnesota, County of Hennepin, ss.

On this 19th day of January, 1921, before me a Notary Public within and for Hennepin County, Minnesota, personally appeared George H. Gardner, Benjamin Drake and Robert W. Hargadine to me known to be the persons described in and who executed the foregoing Articles of Incorporation, and they acknowledged that they executed the same as their free act and deed.

(Notarial Seal) P. L. SOLETER, Notary Public, Hennepin County, Minn. My commission expires Sept. 6th, 1927.

State of Minnesota, Department of State.

I hereby certify that the within instrument was filed for record in this office on the 22nd day of January, A. D. 1921, at 11 o'clock a. m., and was duly recorded in Book \_\_\_\_\_ of Corporation on Page \_\_\_\_\_.

MIKE HOLM, Secretary of State.

72234

State of Minnesota, County of Crow Wing, ss.

I hereby certify that the within instrument was filed in this office for record on the 24th day of January, A. D. 1921, at 11 o'clock a. m., and was duly recorded in Book R. of Mine, on Page \_\_\_\_\_.

A. G. TROMMALD, Register of Deeds.

To Write Well.

For a man to write well there are required three necessities: to read the best authors, observe the best speakers, and much exercise of his own style. In style, to consider what ought to be written, and after what manner he must first think and exorcise his matter, then choose his words and examine the weight of either, then take care in placing and ranking both matter and words that the composition be comely; and to do this with diligence and often.—Ben Jonson.

Term "Four Hundred."

This term was originally applied by a well known society man of New York, Ward McAllister, to the wealthiest residents of that city. For a ball given by a millionaire in New York city, McAllister was in charge of the invitation list. When questioned by a reporter, he stated that only 400 cards were to be sent out, adding "After all, there are only 400 persons in New York who count in a social way." The reporter was able afterward to obtain the list of guests and had their names printed as New York's Four Hundred.

## TURPO FOR COLDS

Colds should not be neglected, as they may develop into serious trouble. Turpo gives immediate relief by getting under the skin to the very root of the trouble, relieving congestion and inflammation. As it is soothing and healing in its action it is especially recommended for the treatment of children's colds. Doctors recommend Turpo as a reliable home remedy.

Careful mothers will always keep a jar of Turpo in the home. Sold in white opal jars with the orange and black label at 30c and 60c. Your druggist will refund your money if you are not completely satisfied.

**TURPO**  
For every Cold and Congestion

## FREE! Gold Fish

We have another shipment of GOLD FISH which we will give away on the usual terms—one fish with each 25c purchase from our special sale table. Number is limited.

## INNOVATION AT NEW PARK

Completed by Manager F. S. Workman, Special Presentation to be Given "Kismet"

Manager F. S. Workman, has returned from Minneapolis and stated he had arranged with Minneapolis and St. Paul theatres to present special pictures just the same in Brainerd as they are presented in the St. Paul City theatres.

The first picture to receive the special presentation will be the new Otis Skinner production "Kismet" which will be presented here the middle of February. The set that will be used is the same which was used at the New Capitol Theatre, St. Paul's new million dollar playhouse. The costumes and all presentation numbers will be the same as used in the Capitol.

The dancer who appeared at the Capitol will also appear here and the same musical numbers will be used.

Brainerd certainly should be proud to be able to secure this, as it is the first time that unusual exploitation has been tried in the smaller cities as heretofore the cost has made this impossible, but Mr. Workman through his affiliations has been able to do this, and if it is a success he promises that it will become one of the regular added attractions at the New Park.

## GERMANS SUSPECT VON LUDENDORFF

(By United Press)

Berlin, Jan. 26.—Rumor has it that General von Ludendorff is behind the scheme in the revolutionist movement in Bavaria.

He is, however, too clever to let his hand appear openly in the situation there, just as he was too clever to be "caught with the goods on" when the Kapp Putsch came; though it was significant he was one of the earliest callers at the Kapp chancellery.

Many Germans believe that Ludendorff is living for the day when he could be hailed as the "Savior of Germany." But reasonable persons from both the conservative and radical camps credit him with too much sense to be actually leading an armed uprising which might only bring entente troops pouring into the Ruhr or an entente air fleet blasting German cities.

The Bavarian "revolution" has been touted very strongly of late, especially since the entente insisted upon dissolution of citizens' guards organizations there. There is plenty of material there for a coup, bent on re-establishing monarchy; there are weapons and well organized groups to do the "revoluting," should the signal be given. The situation is such that a prophesy would be dangerous. It can only be said that most of the advertised-in-advance revolutions do not happen in Germany—or, if they do, they don't last long. It is likely that if the reds are kept under control this winter, the Potsdam Putsch group will find little occasion to cut loose.

However, one thing is certain, Ludendorff isn't sitting in Munich to enjoy its famous works of art. He isn't in touch with a lot of reactionaries just simply because he needs society. And, he didn't move from Berlin to Munich just because Munich is a cheaper city in which to dwell.

## Sonorous Greetings.

Just a mere passport issued by a New Haven justice and approved by the government in 1907 bears the following mass of words: Most Serene, Serene, most Puissant, Puissant, High, Illustrious, Noble, Honorable, Venerable wise and prudent, Lords, Emperors, Kings, Republics, Princes, Dukes, Earls, Barons, Lords, Burgomasters, Schepens, Councilors, as also Judges, Officers, Justiciars and Regents of all the good cities and places, whether Ecclesiastical or Secular, who shall see these patents, or hear them read."

## ECONOMY THAT IS REALLY WASTEFUL

CONGRESS PLANS TO CUT APPROPRIATIONS FOR THE WAR ON NOXIOUS ANIMALS.

## WORK WOULD BE CRIPPLED

Pests That Destroy Crops and Stock Already Are Increasing in Numbers and Demands for Help Are Coming In.

By EDWARD B. CLARK.  
Washington.—In the fiscal year 1919 a bureau within the biological survey of the Department of Agriculture saved \$18,000,000 worth of property to the farmers and stock raisers of the country by its war on destructive rodents and predatory animals.

This saving of \$18,000,000 to the agricultural interests was made possible because under the necessity of wartime production congress voted a sum of \$225,000 for the work of the bureau in addition to its ordinary basic appropriation. In other words, the additional sum added to the basic sum, the whole amount being somewhere in the neighborhood of \$600,000 brought about a saving of nearly \$20,000,000.

Congress today is bent on economy. As a result the proposal is made to cut appropriations for the bureau which wars on noxious animals that attack the crops and the stock to an amount that will cripple the work and probably result in large losses to the crops and to stock which otherwise might be averted. This sounds like an editorial expression of opinion, and so it is, but it is based on the actual performances of the past and on knowledge that since the fiscal year 1919, and with decreased appropriations, the injurious rodents and the predatory larger animals are increasing in numbers and in the damage that they are doing to grain and live stock.

A member of congress was told the other day by a man interested in preventing the losses to the farmers and the stock raisers that if the government officials could prevent the predatory creatures from breeding and increasing, it would be all well enough to talk of decreased appropriations, but, he added, "all the talk about birth control in the United States does not concern itself with cougars, coyotes, wolves, field mice and gophers."

**Coyotes Kill Michigan Sheep.**  
Not long ago some of the burned-over land of Northern Michigan was declared to be good for the raising of sheep. So it was that the industry was started on the northern peninsula. Today there are demands coming in daily from the Wolverine state that something be done to stop the depredations on the flocks by the coyotes and the wolves which since the decrease of appropriations have increased in great numbers. Last year one sheep man in Northern Michigan lost 900 lambs, every one of which fell a victim to the coyotes.

Dr. A. K. Fisher is the chief of the bureau of economic investigations of the biological survey of the Department of Agriculture, and he has in charge the work of control of the noxious rodents and the predatory flier pests. Requests which virtually are demands have come in not only from Michigan, but from Missouri, Arkansas and Oklahoma, urging that the work of extermination of the injurious animals shall be enlarged, and setting forth conditions which show that the lack of money since the fiscal year 1919 has resulted in the checking of the work and in large consequent losses.

Congress seemingly never thoroughly has understood just what work is being done by certain bureaus of the government. It takes an object lesson once in a while to give the members full understanding of the situation. They had one a few years ago, and this year probably they will have another of another kind.

## Learned Lesson From Nevada Case.

In one section of the state of Nevada there appeared some time ago multitudinous herds of field mice which attacked and destroyed the alfalfa. The birds of the air were the first to discover the presence of the mice. Hawks, owls and even the great seagulls appeared and literally gorged themselves on a diet of rodents, but numerous as the birds were, they could not check the plague. The bureau of economic investigations sent agents into the field and in less than a week they had the situation under control, and they saved hundreds of thousands of dollars worth of crops to the growers of Nevada. Congress had this lesson presented to it, and it voted immediately an increased appropriation for the bureau of economic investigations.

The additional sum which was voted for this work in war time was so voted because it was necessary to stimulate production. The addition of money was a stimulant because the stock raisers and some of the crop raisers knew that they would have additional protection against the preying creatures. The estimate of \$18,000,000 which was fixed as the sum which the appropriation had saved was based on reports from sections where the depredations of the animals had been severe in times past, and where the amount of the damage was readily ascertainable.

## DO MOST WORK ON THURSDAY

Statistics Show That British Factory Employees Are at Their Best About Midweek.

What is the best workday in America? In England it is Thursday. That is the finding of industrial research board investigators of that country. The London Chronicle reports that over a period of twenty weeks the output was registered and "graphs" were made.

The workers gave their best on Wednesdays and Thursdays, but the output on Saturday was invariably low. When doubled (to equalize time) it is often less than 75 per cent of that on other days.

Another important conclusion was that the skilled workman is much more regular in his output than the worker not so well qualified. He does not get the "fired Saturday feeling" so soon.

In some factories the output arises until Friday, but among the less skilled workmen it was found that Thursday was the best working day.

An important consideration which the investigators kept in mind was that of the atmospheric condition in which work is done. Records of the air conditions have been taken with the output records.

In various plants the Saturday output was so low that employers found it unprofitable to operate, so they closed down. From this it would appear that on a half day the worker does not give the average of a half day of production.—Richard Spillane in the Philadelphia Public Ledger.

## BOMBAY A CITY OF BEGGARS

Government Is Planning Severe Measures to Repress Nuisance That Is Becoming Intolerable.

Some time ago the government of Bombay appointed a committee to consider and formulate proposals for the purpose of suggesting practical measures whereby the ever-growing nuisance of professional beggary might be abolished. The committee has now completed its investigation and has issued a report.

The report shows that there are in Bombay city alone 5,000 professional beggars, and the beggars in other parts bring the total for the presidency to over 60,000. The general conclusions of the committee are that there must be introduced at the earliest opportunity an act for the prevention of professional beggary, which will be applicable to the whole of the presidency.

Sadhus and fakirs, it is suggested, should be exempt from the operations of the act, which it is proposed should make begging a cognizable offense.

Those who have visited India will doubtless recall with feelings of horror the terrible sights they have witnessed of beggars, many of them physical wrecks and suffering from loathsome diseases, seated about the roads soliciting alms from passersby.—From the Times of India.

## War Maps for Envelopes.

From the Red Cross Bulletin of the Baltic states, published at Riga:

"The shortage of paper has resulted in many novel makeshifts. One of these is the use of German and Russian official war maps as material for envelopes.

"Large quantities of war maps of the Russian, the German imperial army and Bernmont's western volunteer army were captured by the Letts since their independence in November, 1918. They were sold to private interests, who make many varieties of envelopes from them. The paper is of excellent quality.

"No attempt was made to remove the map proper. The maps were simply folded and cut to size and glued. It is very convenient to open a letter and find that the inside of the envelope is a map of the district of which the letter treats."

## THE VERY BEST ARGUMENT

in favor of your coming to us for Chiropactic adjustments in all things pertaining to health is the success we have had in adjusting the functional abnormalities of others who have tried this new science of adjustments. Many having had abnormal conditions corrected are now enjoying perfect health and there is no reason why you should not do the same.

## AMUSEMENTS

## "THE DANCIN' FOOL"

Handsome Star, Wallace Reid, in Picture at New Park, Opens There Wednesday

Wallace Reid, the handsome screen star, is very lucky. He has been able to make play out of his work, because his starring roles recently have called upon him to do exactly the things that he enjoys doing. Take "Excuse My Dust." In that speedy photoplay, Wallie had the role of a speed-demon auto salesman. Now, if there is anything Mr. Reid is keen for out of hours, it is dashing about in a fast racing car.

Then came "The Dancin' Fool," which will be at the New Park theatre today. In this picture Wallie is cast as a rube who comes to New York and becomes a sensation as a cabaret dancer. Again the breezy player was right in his element. He likes jazz music, and he loves to dance. With attractive Bebe Daniels as a partner, he practiced long hours on the studio stage at a series of unique dances that, it is claimed, will prove sensational when shown on the screen.

"The Dancin' Fool" was adapted by Clara Kennedy from Henry Payson Dowst's well known magazine story of the same name. Sam Wood directed the film, and it is a Paramount Arterraft.

## "GIRL OF THE SEA"

Submarine Picture at New Lyceum Wednesday and Thursday Full of Thrills

When J. E. Williamson, who wrote and produced "Girl of the Sea," the big submarine picture which comes to the Lyceum for two days commencing tonight, was casting about for a scenario writer to make his story into a photoplay, he decided upon E. Lloyd Sheldon, writer of stirring melodrama as the man for the work. His judgment is borne out by the thrilling and finished picture turned out.

From start to finish of "Girl of the Sea" there is not a moment of dullness. Thrill follows thrill, and the action is fast. Mr. Williamson was also fortunate in obtaining young Betty Hilburn to play the leading role. Miss Hilburn, although only sixteen years old, swims like a fish, is pretty and has real screen ability. This combination is required for the part and Miss Hilburn makes a charming little leading lady.

Some of her stunts in the water are remarkable. In one of the scenes she dives to the bottom of the ocean to go to the rescue of her sweetheart who is in the coils of a giant octopus. By attracting the attention of the fish to herself, she enables the man to escape and makes her own getaway safely. Again she is forced to swim in shark infested waters to rescue the man she loves who has been knocked from the mast of the ship by the villain. Miss Hilburn led quite an exciting life while the drama was being filmed.

## EAT ENOUGH A SAFE RULE

Have No Fear of Sour Stomach, Gasiness, or Distresses Due to Indigestion or Dyspepsia

From the daily food the system must have a diversified supply of

materials or parts of the digestive machinery will quit for lack of work. Therefore, to cut down food or go on a starvation diet calls for a degree of selective knowledge that very few men possess. The best plan is to eat anything you like and as much of a variety as possible. Follow meals with a Stuart's Dyspepsia Tablet and you supply the stomach with an alkaline effect which enables digestion to go on without gasiness, rumblings, water brash, biliousness, coated tongue, abnormal thirst, and the feeling of drowsiness after eating. Get a 60 cent box of Stuart's Dyspepsia Tablets at any drug store and you will realize why so many physicians have recommended them for indigestion and dyspepsia.

## THE UNIVERSAL CAR

### Weak Links in a Strong Chain

That's just what imitation parts are when they become a part of your Ford car. They look strong enough, but the metal isn't there—the strong, durable Vanadium steel that goes into the Ford chassis and every Ford part. Ford parts are specially cast and heat-treated, each according to its use. Some require a hard, flint-like wearing surface, others need resiliency, and some need just "toughness."

Ford metallurgists have been studying these problems for sixteen years and know just how each unit should be made to endure a maximum of wear and tear. They know that best results can be obtained only by the use of special formulas for different parts, and that honest Ford parts wear from thirty-five to one hundred per cent longer than counterfeits.

We carry complete assortments of genuine Ford parts for both passenger cars and trucks. And our garage is equipped to give careful, prompt Ford service—from minor adjustments to complete overhauls. Drive in, it's better to be safe than sorry. Come to the Authorized Ford dealer for service.

Falconry Still Practiced.  
Falconry, known to the Chinese 2,000 B. C., and popular sport in days of Nineveh and Babylon, 1200 B. C., is still in vogue in certain parts of England. Wild hawks are caught and tamed for the sport, and the Illustrated London News recently related how one old Hollander with two assistants, captured a sufficient number of the sporting birds to keep English clubs supplied. The hawks are trapped with decoy pigeons and nets. The hawks bear a distinct resemblance to smaller ones of the American family.

The Peanut.  
The common peanut grows in a peculiar way that is distinctly original. The little plant sends up its shoots, with the fruit on the end of a somewhat stiff stalk, and then before it ripens the stem bends over and carefully pushes the fruit underground. As pigs are said to be especially fond of these, it has been humorously suggested that the plant does this to hide its nuts from the porker's too inquisitive investigations.

## SMALL LEAK IS A SERIOUS AFFAIR

A. A. Arnold, Commissioner of the Water and Light Department, Grants an Interview

### HENRY ROBERTS IS QUOTED

Water Meters Were Selected After Long Tests Made by the Board and Hersey Found Sensitive

A. A. Arnold, a Commissioner of the Water and Light Board, told the Dispatch, in an interview a few days ago, how serious a small leak really is. Henry Roberts, foreman of the Water and Light Board workers, informs us that he has a chart on which is shown exactly how much water is lost when flowing through leaks of different sizes and at different pressures.

"Some people," Mr. Roberts says, "think that a 1/4-inch pipe will not deliver enough water. Maybe it won't in certain cases; but if it is a leak that large, with water flowing at 40 pounds pressure the waste will be 1350 gallons an hour or 32,000 gallons a day. At 40 cents a thousand gallons, this figures \$12.80. When gallons are changed to dollars one notices the difference better. Of course, in houses leaks are never that large.

"The usual leaks in a house are through very small openings and that is why people ignore them. I should say that such leaks measure 1-32 or 1-16 to 1-8 inch at the most. On a ruler such a measurement does not mean much to most people. If the pressure on the line is only 25 pounds, such small leaks will waste from 1-4 gallon to 2 1/2 gallons per minute, which is the same as 360 to 3600 gallons a day. In dollars that leak alone figures 15 cents to \$1.44 per day. The average family of five people ought not to use more than about 5 or 10 cents a day, but the smallest leak may double this cost.

"Our new meters were selected after long tests made by the Board itself and the Hersey meter was found to be very sensitive at small flows. If anyone thinks his meter is running wild, he should first examine every fixture in his house. I have had this very experience several times lately and know what it means. It surprises one how people will not see little leaks."

### WATER AND LIGHT BOARD

Directs That No Outlets be Allowed Between Meter and Main, Owner Must Make Change

At a regular meeting of the Water and Light Board held Tuesday evening, two members were present, A. A. Wiedemann and A. A. Arnold. Carl Zapffe, the president of the board, was unable to be present because he has not yet recovered from the injury to his foot which occurred at Christmas time.

A complaint was made to the board about the condition of the water in the mains at Northwest Bluff. The board directed that the main pipe be opened and completely discharged, having determined that the condition can not be overcome by flushing the hydrants.

The board ordered that all the insurance on the old pumping station and equipment be cancelled.

The board directed that no outlets be permitted between the meter and the main and that where such outlets exist the owner is to receive 30 days notice in which to make the necessary change to comply with the decision and if this is not done the water will be cut off.

Some consumers appeared before the board requesting the installation of larger pipes than the board felt was necessary and the matter was left open until definite information can be secured from the inspection bureau of the state.

### MUNICIPAL COURT NEWS

Traffic Law Claimed Violated, Cases Set for Trial by Judge Wieland

John Thompson the driver of the Cuyuna Range Transportation Company's bus was in municipal court Wednesday morning before Judge Walter F. Wieland, charged with driving at an excessive speed and pleaded "not guilty." He was ordered to appear in court for trial on Saturday morning at 10 o'clock.

John Welliver charged with reckless driving was in municipal court Wednesday morning and pleaded "not guilty." Attorneys Ryan and Ryan appeared in his behalf. The case was continued until Friday morning at 10 o'clock.

Ervin O'Neill spent last night in the city jail. He is suspected of being implicated in a robbery at Pillager which was discovered about a week ago. The accused was taken to Pillager on the train this morning for examination.

Merle Schultz was picked up at Albert Lee yesterday. He is accused of forging checks in Brainerd and Albert Lee and is suspected of being implicated in the robbery at Pillager. Several Brainerd business men were victimized by the accused about a week ago when they cashed forged checks presented by the young man.

### KNIGHTS PYTHIAS TO HAVE ROU DJP

White Cross Lodge No. 30 to Stage Big Event at Castle Hall Saturday Evening, January 29th

### MANY VISITORS ARE COMING

Invitations Extended to Staples, Aitkin, Park Rapids—2 Banquets To be Served

White Cross Lodge No. 30, Knights of Pythias of this city, will stage a Knights of Pythias roundup at their castle hall next Saturday evening, January 29th. Preparations are now under way to make this one of the most enjoyable celebrations ever held in the city.

Invitations have been sent to the Knights of Pythias lodges at Staples, Aitkin, Park Rapids, Wadena. All have promised to send a delegation of about 150 Knights and Pages, the latter to receive the rank of Knights at this time.

The ladies of White Cross Temple will serve one of their famous banquets, in fact two of them, one at 6 p. m. for the members of Aitkin and Brainerd lodges, and another at 7 o'clock for the Staples and Wadena delegations who will arrive at that time.

At 8 p. m. sharp the lodge will be called to order and the rank of (Continued on Page Six)

## CHAMBER COMMERCE MEETING TONIGHT

First Meeting Since Election of the New Officers and Appointment of Committees

### PLAN AN ACTIVE CAMPAIGN

Imperative that Chairmen of Different Committees Attend and Get Line on New Work

The first meeting of the Chamber of Commerce since the election of the officers for the year 1921 will be held this evening at 8 o'clock. There is reason to believe that the business men, professional men and other who are interested in the work of the Chamber of Commerce intend to go behind the new officers and give them whole-hearted support during the year.

The new officers, as previously announced by the Dispatch, are: President D. D. Schrader; Vice-president Walter F. Wieland and Treasurer A. G. Trommald who are taking up the work with enthusiasm and expect that the year will be an unusually prosperous one, subject, of course, to the support of the membership of the organization.

At this first meeting under the new officers it is highly desirable that as many members as possible attend the meeting. Reports of last year's committees will be read. Business of an important character will be introduced and plans for the forward work of the Chamber will be presented.

It is imperative that the chairmen of the different committees attend this meeting so that the organization may be perfected to take up the unified work of the institution.

The Chamber has a permanent secretary, Francis B. Randall, and the prospects, with a regular secretary at work and under new officers entering upon the task with new enthusiasm, are bright for a successful year.

### The Catamaran.

The catamaran of India consists of three logs lashed together, flush with the surface. On these a fisherman, with a single oar, braves surf and storm, for the craft is unsinkable and the natives do not mind a ducking.

### INCREASES CAPITAL

Farmers Terminal Packing Co. of St. Paul Increases Stock from \$2,000,000 to \$10,000,000

The Farmers Terminal Packing Company of St. Paul, which was organized in Wisconsin with a capital stock of \$2,000,000, has filed under the provisions of the Minnesota Cooperative Law an amendment to its articles of incorporation, increasing its capital stock to \$10,000,000.

This company has a thriving branch house in Brainerd at 316 South Broadway in charge of Charles Gustafson. Brainerd was adopted as a distributing point because of its central location of a territory reaching northward to International Falls, west to Wadena, east to McGregor and south to Little Falls. There are also many farmer stockholders of the packing company in Crow Wing county.

### JOHN T. FRATER

Former County Treasurer Writes of Accident Involving Him in Court, Wash.

W. A. M. Johnston, clerk of the district court, has received the following letter from John T. Frater, who was at one time treasurer of Crow Wing county.

2812 Harvard Ave., North, Seattle, Washington.

Dear Billy: Your kind letter reached me yesterday and in reply am glad to say I am improving steadily. A fractured ankle takes time and draws on the patience. There is nothing to do but wait. My mishap occurred on Dec. 10. We had a severe wind and rain storm that day, for this country, and I left the office soon after 5 o'clock. It was furious on the street, stepped into a bakery, made a small purchase and stepped outside and as I was on the protected side of the street waited for my street car to come along. When it came within one block I

### J. P. STRONG

Prominent Real Estate Broker of Massachusetts

Boston, Aug. 25th—says, "I have been in the real estate brokerage business for many years. I have suffered with loss of sleep, indigestion and nervousness, but since taking Argo-Phosphate, I sleep better and eat without fear of distress, and can feel a great change in my system." There is nothing in medical science that equals Argo-Phosphate in the treatment of indigestion, rheumatism, nervousness, kidney and liver ills. Sold by H. P. Dunn and all reliable druggists.

## Big Reduction!!

\$30.00 Decline on all

## Great Majestic Family Ranges

Manufacturer takes lead in sweeping range price reduction

In a letter just received from the Majestic Manufacturing Co., we have been instructed to reduce prices on all Majestic Family Ranges.

This decline is an extraordinary effort on the part of the manufacturers to stabilize business in general.

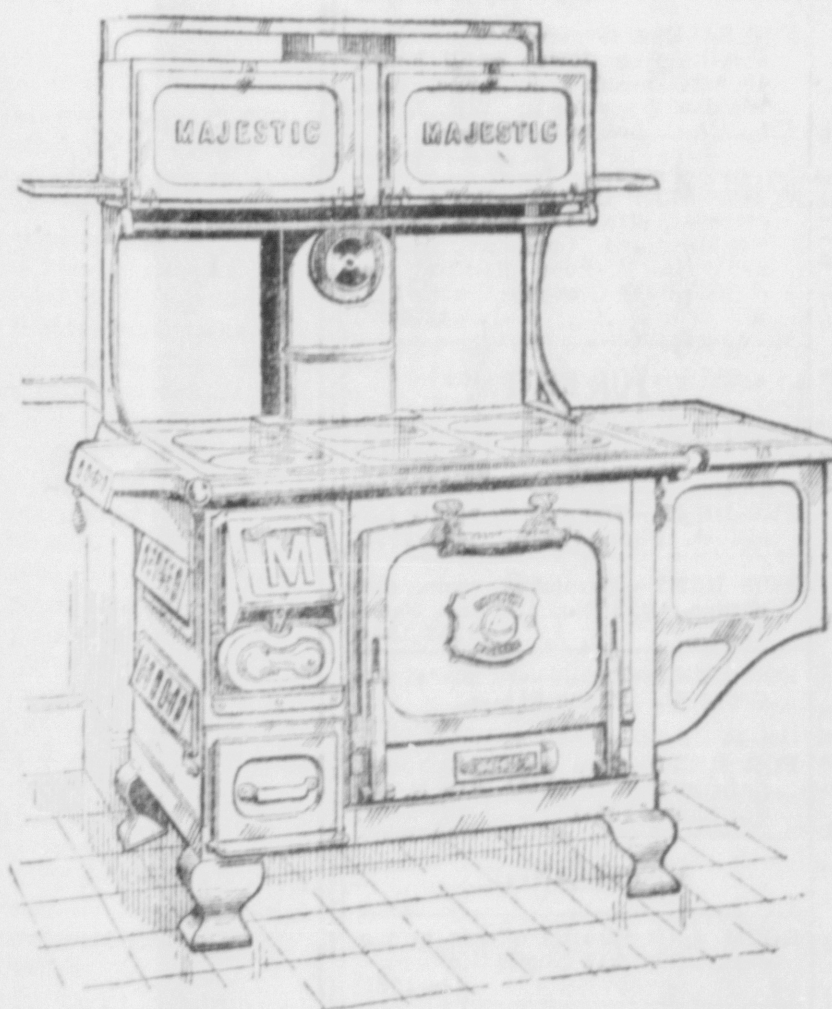

Through cooperation of Majestic Dealers and the factory this exceptional decline was decided on at this time, rather than gradual reductions throughout the year.

Those familiar with continued high costs of iron and labor, will wonder how this great reduction can be made now, but some one had to take the initiative, and we are proud to announce that the Majestic people are setting the pace.

The Majestic Manufacturing Co., and the Majestic Dealers throughout the United States, decided to take their loss all at one time rather than string it out over the entire year 1921.

In the New Model Great Majestic we offer the highest standard of range perfection, and with this extra low price, probably lower than it will be this fall, there is no reason why your kitchen should be without one of these wonderful ranges.

## KNIGHTS OF PYTHIAS TO HAVE ROUNDUP

(Continued from Page 5)

Knight conferred upon the Pages present from the different lodges. Following the close of the lodge an entertaining program will be given in which local as well as visiting members will take part, all contributing to a fine social session. Cards and cigars will add to the enjoyment of the evening.

Every Brother Knight is expected to be present and all visiting Knights are invited.

The following committees have been named by the Chancellor Commander, Rev. H. J. Wolner:

Reception committee—C. D. Johnson, W. A. M. Johnston, D. T. Lawrence, E. E. McQuillen.

Banquet committee—W. A. Hanna, J. A. McKay, J. A. Templeton, Roy McPherson.

Decoration committee—Rev. H. J. Wolner, Dr. A. K. Cohen, G. M. Loken.

Program committee—H. A. Kaatz, F. J. Drieling, L. Johnson.

## Houses Few—Less Divorce.

France is finding no comfort in the housing shortage. Divorces are decreasing in Paris and other French cities "because of the lack of houses and apartments."

Unable to find suitable places in which to live apart, disgruntled couples in many places are composing their differences and continuing to live under the same roof. During the first three months of this year, 8,005 decrees were pronounced in Paris alone, but since April the shortage of houses has been making itself felt, with the result that the number of divorce actions has been falling steadily. Last month the number of applications fell below one thousand, and this month it is believed the number will not reach the seven hundred mark. It is an ill wind, etc.

## Pilgrims Brought Many.

The Pilgrims in America more inclined to look after gunp than books, but several hundred volumes were brought over on the M. flower, including 400 books owned by William Brewster, the leader. Sixty-four of them were in Latin, and a number of others in Greek and Hebrew, while still others were devoted strictly to systematic theology, volumes of controversies with the Roman church, volumes on toleration, polemical works, and discussions on the Reformation. Every family had a Bible, of course, and everyone read it. They started at the first chapter and read the book from cover to cover.

Of 37 Pilgrims the inventory of whose estates is given in T. G. Wright's "Literary Culture in Early New England," not one had less than \$1 worth of books, and 11 had \$5 or more, though only four of these estates totaled more than \$200.

## Remarkable Thirsts.

Glassblowers are known to drink from fifty to sixty pints of water during a day's work and to be nothing the worse for it, but they are beaten by a young and capable worker of whom a physician reports that he drank 12 gallons of water a day and a whole tubful of it during the night.

## JOHN T. FRATER

(Continued from Page 5)

many times nearer the brink than we think. It was a terrible evening to be out, and during the hour or so that I was in the city hospital four others were brought in from the same cause—run down.

This is a big city, and there are many thousands of autos, and in stormy weather the danger—always present—is greatly increased. I have always tried to exercise care—but I will not put up an umbrella to cross the street in future, but for it I would almost certainly have seen the machine. I am in now four weeks today, and I don't know how soon I will get the cast off. Our new term of once begins next Monday. I am anxious to be able to be there with the outgoing and incoming clerks—both are fine fellows. I have been with them since Sept. 1913, and they are much like brothers. I am continued as naturalization clerk. Have

been in that department for the entire time.

I was glad to get your kind letter and trust you and yours may enjoy a happy year and be prosperous. Mrs. Frater joins in very best regards.

Please remember me to the old friends in the court house and any who may inquire for me. I still have a warm side for dear old Minnesota.

Very sincerely yours,

JOHN T. FRATER.

## PAPER FROM VENEER WASTE

Possibilities in Material That Has Hitherto Been Considered to Be Without Value.

In the wood waste from veneer factories the United States forest products laboratory sees considerable raw material suitable for the manufacture of high grades of paper. The cores of many kinds of veneer logs, now used in a large part for fuel, would make excellent pulpwood. In addition, a

large part of the clippings could be turned into pulp stock with profit.

Among the veneer woods whose waste has paper-making possibilities are red gum, yellow poplar, cottonwood, birch, tupelo, basswood and beech. Many veneer factories cutting these species are already within shipping distance of pulp mills. In certain other cases veneer factories are so grouped that they might furnish pulpwood enough to warrant the erection of a centrally located mill. Other economic factors being favorable, such a mill could profitably operate on a daily supply of veneer waste equivalent to 50 cords of ordinary pulpwood.—Scientific American.

## POINTS OUT HUSBAND'S DUTY

Writer Insists No Man May Stand in the Light of His Wife's Domestic Ambitions.

"Puzzled husband" writes us that he is sorely tried by his wife's ambition to bake the family bread, and other things. His domestic affection and spirit of chivalry will not permit him to tell his wife the truth—that the bread is almost as heavy as a paving stone and quite as indigestible. So he goes to work every morning with a heavy heart and an even heavier stomach, and is bedeviled with gripes

and abdominal pains all day. Greene M. Farley writes in the Seattle Post-Intelligencer.

Not only that, but his wife is a constant reader of domestic science departments and she uses him as an experiment station. This last week, he says, he had biscuits that would do for sinkers on a fish line and an angel cake that could not be differentiated from old putty. The heartrending feature is that she asks him with a bright smile how he likes it all, and he cannot find it in his breast to tell the truth about it; so he lies frankly and wholeheartedly.

All this is getting on his nerves and on his stomach and on his conscience.

In the course of a little time he feels his life insurance is going to be due.

Should he tell her the truth, or should he suffer in silence and let her go ahead and collect the life insurance?

If life is worth anything to him he might conclude to tell her the truth and let her go ahead and procure her divorce. She might find a second husband with a cast-iron digestive apparatus and the present husband ought not to stand in the way of his wife's career as a domestic scientist.

## Advertisers in the Daily Dispatch

Now get the same cut service as the big city dailies.

We have made arrangements with the Murray Illustrated Advertising Company of New York, for the furnishing of cuts for advertising purposes absolutely free to our patrons. This service is the best in America and has as clients some of the largest newspapers published.

Never before has it been possible for a paper to furnish this service without a considerable added outlay on the part of the advertiser, and even now it is only offered to the paper recognized by advertisers and readers as the leader in its section.

The Dispatch buys the cuts; the advertiser pays for the space in the paper at the same rate as for other advertising. Many of our patrons have already taken advantage of this offer and others are invited to do so.

We will be glad to explain the matter more fully
